

PRACTICE OWNERS

COMMON QUESTIONS

“What are the key considerations in setting up a private practice?”

“How do I go about succession planning?”

“How can Affluens360 help me improve the efficiency & profitability of my practice?”

Affluens360 CFO Program

As a new Practice Owner, you'll need to think through business planning, financial modelling, cashflow & operational logistics - to name a few. It's paramount that this preparation phase is executed well so that you derive the best outcomes for your practice.

If you are already a practice owner, perhaps you are thinking about your next steps. This maybe introducing better efficiencies internally or considering further acquisition plans. Our industry insight & expertise can help you with all the critical decisions that need to be made.

AFFLUENS360 CFO Program has the practice advisory expertise to help you with managing a successful practice, allowing you to focus on the clinical side of the business. We can assist you in the following areas:

- Business Succession Planning
- Business Valuation
- Risk Mitigation Planning
- Business Advisory & Strategy
- Practice Operational Management
- Business Planning & Financial Modelling
- Compliance & Management Accounting
- Practice Acquisition & Development
